## DETAILED ACTION

### ***Allowable Subject Matter***

Claims 2-4 and 7-19 are allowed over prior art of the record.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

After further search and consideration it is determined that the prior art of record neither anticipated nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach " forming a trench in the formation zone for the source line by an attack of the formation zone and of the protective resin so as to result in a deposit of residue from the protective resin below the precursor stacks, wherein the forming a trench includes forming a trench so as to result in the protective resin formed of thick I-line resin; removing the deposit of residue; and implanting a source line in the formation zone, with at least a portion of the source line extending directly below the precursor stacks." as recited in claim 7.

Also prior art of record does not teach " forming a trench in the formation zone for the source line by an attack of the formation zone and of the protective resin so as to result in a deposit of residue from the protective resin below the precursor stacks, wherein the forming a trench includes forming a trench which is a type having a (SAS) self-aligned source; removing the deposit of residue; and implanting a source line in the formation zone, with at least a portion of the source line extending directly below the precursor stacks." as recited in claim 8.

Claims 2-4 and 9-19 are also allowed as being directly or indirectly dependent of the allowed base claim(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
